Collapsible Cages

Heavy-duty, collapsible metal cages are ruggedly constructed for long term durability. **Transport cages** are ideal for the transporting of goods on a truck. The **transport cage** can be folded down for the return trip thereby saving space.

Code: 308	Cage Transport		Specifications
Size (mm)	1140 x 1140	Height (mm)	1160
Legs height (mm)	100	Approx weight (kg)	80
Capacity (kg)	1000	Capacity Stacked (kg)	300
Mesh size (mm)	50 x 50	Wire Size (mm)	4
Finishing	P/Coated	Stackable & Collapsible	Yes

Pallet Cages

Designed for fast assembly onto pallet (pallet not included). Interlocking hinge and bracket system enables collapsible cages to be assembled on loaded pallets. Also known as **pallet cage**.

Code: 315	Cage Pallet		Pallet not included
Size (mm)	1165 x 1165	Height (mm)	865
Approx weight (kg)	30	Capacity (kg)	1000
Capacity Stacked (kg)	300	Mesh size (mm)	50 x 100
Wire Size (mm)	3.5	Finishing	P/Coated
Stackable	Yes	Collapsible	Yes

Pallet Cage

A strong **half size pallet cage** which is hot dipped galvanised making it ideal for storage of heavy goods. **The pallet cages** can be stored outside & near the ocean without rusting. Simply clips together on a standard size pallet or can be folded down when not in use.

Code: 315	Half Cage Pallet		Pallet not included
Size (mm)	1165 x 1165	Height (mm)	500
Approx weight (kg)	30	Capacity (kg)	1500
Capacity Stacked (kg)	500	Mesh size (mm)	100 x 50
Wire size (mm)	4.5 diameter	Finishing	Galvanised
Stackable	Yes	Collapsible	Yes

Storage Cage

This **storage cage** can be used for the storage of fragile or valuable items to keep them free of dust and out of site. **Storage cages** can be double stacked to save using pallet racking. They are lockable and can be used as a transport cage around town.

Not suitable for long distance transport.

Code:	Tin Cage Storage		
Size (mm)	1100 x 1100	Height (mm)	1200
Legs height (mm)	100	Approx weight (kg)	80
Capacity (kg)	1000	Capacity Stacked (kg)	300
Finishing	Galvanised/ Duragal	Stackable	Yes
Collapsible	No		

Enclosed Cage

Enclosed cages can be used for storing or transporting of goods. The enclosed cage is not 100% water proof but some company's shrink-wrap them for use over long distances. Can be double stacked & folded down for the return trip.

Code: 308	Tin Cage Enclosed		
Size (mm)	1050 x 1020	Height (mm)	1000
Legs height (mm)	100	Approx weight (kg)	90
Capacity (kg)	1200	Capacity Stacked (kg)	300
Mesh size (mm)	-	Wire Size (mm)	-
Finishing	Powder Coated	Stackable & Collapsible	Yes

Transport Cages

TP 1200 transport cages are ideal for transporting of goods over long distances. The **transport cage** can be double stacked or a standard size pallet can be stacked on top. They are also lockable.

Code: TP 1200   Cage Transport

Size (mm)	1170 x 1180	Height (mm)	1200
Legs height (mm)	100	Approx weight (kg)	109
Capacity (kg)	1000	Capacity Stacked (kg)	300
Mesh size (mm)	50 x 50	Wire Size (mm)	4.5
Finishing	Duragal	Stackable	Yes
Collapsible	No		

Collapsible Cages

Steel cages are mainly for storage but can also be used for transport. A steel cage can be stacked up & collapsed down when not in use to save space. This cage is our best seller.

Code: 308   Single Cage Storage

Size (mm)	1100 x 1100	Height (mm)	1020
Legs height (mm)	100	Approx weight (kg)	90
Capacity (kg)	1000	Capacity Stacked (kg)	300
Finishing	P/Coated	Stackable	Yes
Collapsible	Yes		

Collapsible Cage

This **double storage cage** is ideal for longer goods or larger cartons. Storage cages can be stacked up & still have access to the goods though the half drop down doors.
Saves having to use pallet racking.

Code: 308   Double Cage Storage

Size (mm)	2270 x 1100	Height (mm)	1180
Legs height (mm)	90	Approx weight (kg)	140
Capacity (kg)	1000	Capacity Stacked (kg)	300
Mesh size (mm)	100 x 100	Wire Size (mm)	4.5
Finishing	P/Coated	Stackable	Yes
Collapsible	Yes		

Full Cage

Hot dipped **solid galvanised cage** for use outdoors or near the ocean. A solid cage to handle heavy items.

Code   Cage Solid Galvanised

Size (mm)	1100 x 1080	Height (mm)	1160
Legs height (mm)	100	Approx weight (kg)	90
Capacity (kg)	1000	Capacity Stacked (kg)	500
Mesh size (mm)	50 x 50	Wire Size (mm)	5
Finishing	Galvanised	Stackable	Yes
Collapsible	No		

Storage Rack

A large platform for storage of bulky or longer items. The **storage racks** can be stacked up or folded down when not in use.

Code: 1001   Storage Rack

Height (mm)	1300	Width (mm)	1200
Length (mm)	2200	Tare weight (kg)	99
Load Capacity (kg)	1000	Capacity Stacked (kg)	300
Stackable	Yes	Collapsible	Yes

Stillage

Hot dipped galvanised heavy duty **stillage** suitable for outdoor use. The **galvanised stillage** can be stacked up or collapsed by removing the posts for storage when not being used.

Stillage Galvanised

Size (mm)	1500 x 1000	Height (mm)	1300
Legs height (mm)	115	Approx weight (kg)	95
Capacity (kg)	2000	Capacity Stacked (kg)	1000
Finishing	Galvanised	Stackable	Yes
Collapsible	Yes
